Paper Dated November 1, 2005
Attorney Docket No. 4605-045107

This application is the United States National Phase of PCT Application No. PCT/JP03/02469, filed March 4, 2003, claiming a priority date of March 6, 2002 corresponding to Japanese Patent Application No. 2002-059775. The relevance of JP 11-188711, identified in Form PTO/SB/08A, is indicated on page 1 of the specification. The remaining references identified in Form PTO/SB/08A were cited in an International Search Report dated June 17, 2003 in the underlying PCT application. These references were designated as "Category A" state-of-the-art references in the International Search Report, indicating that these references were not considered to be of particular relevance. The relevance of these references is indicated in the International Search Report. Furthermore, the International Preliminary Examination Report dated November 25, 2003, indicates that the claims in the PCT application meet the international standards of patentability. The claims in the present application are similar to the claims filed in the PCT application and should be in condition for allowance for the same reasons set forth in the International Preliminary Examination Report. Copies of the International Search Report and the International Preliminary Examination Report are enclosed herewith for the Examiner's convenience. English-language abstracts of the references identified in Form PTO/SB/08A are also enclosed herewith.

Pursuant to 37 C.F.R. § 1.97(b)(3), no fee is believed to be due for the filing of this Information Disclosure Statement as it is being submitted before the mailing date of a first Office Action on the merits. The Commissioner for Patents is hereby authorized to charge any additional fees which may be required to Deposit Account No. 23-0650.
